

Each page is linked together by a crossbar navigation tool that runs across the top of the page, on each page making navigation much more efficient and easier to find the intended page the user is looking for, the only page that is accessible through one particular page is the prices PDF file, as its directly relating to the second hand/ prices information that the page is linked to. Contact information is displayed on the home page as it's the easiest place for users to find the contact information having it displayed right in front of them.
